

This is a 1955 .45 Target Model (heavy barrel). Introduced in March of 1955 a double action revolver built on a 5 Screw square butt N target frame with 6-1/2 inch pinned barrel. It is equipped with .500 inch target hammer and target trigger, target stocks and shrouded barrel covering the ejector rod and came with half-moon clips. Partridge front sight with micrometer click rear sight were standard. In 1956 the side plate screw was eliminated and became the Model 25 in 1957.

The revolver in the picture was manufactured in 1955 (5 screw frame) and was shipped to Arthur Cook Supply Company, Laurel MD on March 12, 1959 along with 5 others of the same configuration. The Box may be or not the original.
